The Planetary Dance is a ritual dance created by American choreographer Anna Halprin in 1981. Misha Horacek is a Canadian-Czech performance artist. She trained at Tamalpa Institute California to lead new incarnations of this ritual dance, which has a 35 year-old legacy with hundreds of happenings worldwide. The overriding intention of the Planetary Dance is *Peace Amongst People And Peace With The Earth*.

There will be an open LAB at Chisenhale Dance Space on **Sunday 18th September** (2-8p.m.) for those who wish to take part in a preparation of the score for the event. This event is optional, free, and all are welcome. **Please Register** with Misha Horacek: **info@mishahoracek.com**

This project is made possible through partnership with the Geraldine Mary Harmsworth Park, the Peace One Day organisation, and with the generous endorsement of Tamalpa Institute, California & Tamalpa UK.
