THURSDAY MAY 25

Time: 3:30 pm

**Location: Parvis Maison du Savoir
University of Luxembourg at Esch/Belval**

The Planetary Dance is an annual ritual of healing and community renewal. It is an invitation to people all over the world to join in a dance for peace in their own communities and for peace with the Earth. It brings people of all ages and abilities together in a beautiful setting to “dance for a purpose,” much as people in traditional cultures have danced for a bountiful harvest, a successful hunt, or a happy marriage.

The Planetary Dance is a participatory dance rather than a theatrical performance. At its heart is the Earth Run, a simple dance that everybody can do. Participants are invited to run, walk, or simply stand in a series of concentric circles, creating a moving mandala. As we all move to the steady heartbeat of the drums, we become one collective body. Each step upon the Earth becomes a prayer for healing. For details visit: <http://www.planetarydance.org>
