The Planetary Dance is a ritual dance created by American choreographer Anna Halprin in 1981. Misha Horacek, a Canadian/Czech performance artist, trained at Tamalpa Institute California (2013) to lead new incarnations of this ritual dance with a 35 year old legacy and hundreds of happenings worldwide. Misha leads an international collective of artists to perform at the GMH Park (War Memorial), beside the Peace Garden blessed by the Dalai Lama.

The PD Collective is working with the concept of "Embodying Time" as a way of re-connecting and re-claiming a holistic experience of Life. This event is designed to allow for prayer through dance, and it is also meant to be an occasion for gathering and celebration! We INVITE the public to JOIN US! – And to help us grow as an annual event in the name of peace and community.
